WHAT ?

International Seed Exhibition-2019

Who ?

Public and private seed related organisations are expected to exhibit their products and facilities like research & development, new seed varieties, seed testing lab equipment, biotechnology, processing machinery, post harvest technologies, advanced seed treating materials etc. in the exhibition.

When ?

June 26 - 28, 2019

Where ?

Hyderabad International Convention Centre (HICC), NearHITEC City, Hyderabad, Telangana State, India.

As a part of the 32nd ISTA Congress, 2019 which comprise of Seed symposium, technical & annual meetings, Paper & poster presentations, networking etc.

ISTA CONGRESS PROGRAMME

The Seed Symposium of the 32nd ISTA Congress

THEME

SEED TECHNOLOGY AND QUALITY IN A CHANGING WORLD

SESSION 1

Developments in Viability and Vigour testing. Germination and Dormancy, Biochemical tests for viability, New vigour testing methods, Field emergence, Imaging, Seed responses to biotic and abiotic stress.

SESSION 2

Ensuring seed quality for future generations. Genetic resources, Habitat restoration, Post-harvest handling, Long-term storage, Moisture content and Equilibrium relative humidity, Desiccation tolerance recalcitrance, Seed longevity, Maintaining the seed quality of non-crop species.

SESSION 3

Ensuring seed health and implications of change for seed pathology.

Epidemiology, Phytosanitary issues, New diseases, Novel disease testing methods, Seed treatments and control of disease, Biostimulation.

SESSION 4

Seed production in a changing environment.

The environment and seed quality, Organic seed production, Use of and control of GM material, Genetic and physical purity, New breeding technologies, Maternal effects, Epigenetics, Seed development and maturity, Infestation with pests, Wild Species.

SESSION 5

New technology and novel methods for seed quality assessment.

Biochemical and molecular techniques, Imaging and scanning technologies, Phenotyping, Genetics of seed quality, Variety identification, GM detection techniques, Automated methods.
